

A contribution to children's leisure activities in Fljótshérað

Rules og conditions

Fljótshérað supports sports- and leisure activities for children between the ages of 4 to 16, with permanent residence in the municipality, with a contribution in the amount of 15.000 krónur in 2018.

The contribution's goal is to encourage children to take part in organized and healthy sport- and leisure activities, independent of economic or social circumstances.

Organized sport or leisure activities are those that cover at least 10 weeks combined and are under the leadership of qualified teachers/coaches/staff. Also arranged by acknowledged clubs, associations, businesses or schools which undertake such operations.

Thereby, sports, arts, music or courses and activities by other organized groups and clubs are covered.

The contribution is not valid as payment for facilities, travels or other costs that might arise because of training or competitions. Also, it is not valid as a payment for sports practiced on one's own, eg. for memberships to a gym or swimming pool, where there are no organized activities.

The contribution will not be more than out of pocket costs according to receipt, and never more than 15.000 krónur each year. The contribution is to be used during each calendar year, and expires if it is not applied for before December 10th.

To apply for the contribution the parent or guardian fills out an application found on the municipality's website, bring the application and a receipt for payments made, to the offices of the municipality at Lyngás 12 or e-mail it to tomstundur@egilsstadir.is.

The payment will be made three times a year, in June, September and December, according to receipts. The payments will be made around the middle of the month. Payment will be made in June for those who apply before the end of May, in September for those who apply before the end of August and in December for those who apply before December 10th.

If any debatable questions arise the committee for sports and leisure will decide on the matter. The contribution is under the supervision of the project manager for sports and leisure, who answers all end every question.

The council decides on the amount and administration of the contribution for each year.

Approved by town council, January 17th 2018
